I took piano lessons from private teachers In Michigan. Studied at Eastern Michigan University to be an elementary school teacher , with an emphasis on music. Took piano lessons at college in the music department. I began teaching piano after I was married. I played piano at church, sang in various choirs throughout the years .

When my youngest son began violin lessons at age 6 through the school district in Idaho Falls, I became interested in the Suzuki Method. After I discovered that there was a piano method by Suzuki, I attended many workshops to learn about it in Idaho, Utah,

California and Japan, having several lessons with Dr. Kataoka, the master teacher from Japan. I have thoroughly enjoyed teaching this way for many years.

I teach the Suzuki approach. Piano Basics as Taught by Dr. Suzuki and Mrs . Kataoka .

Church Music, Wedding Music, I play the Celtic Harp for special occasions. Since the Covid pandemic I have varied my teaching to include FaceTime traveling to the student's homes as well as teaching students in my Place of residence. 83646,

"I specialize in students who have a real passion for the piano. Our studio has had a finalist in the MTNA Nationals competition 3 times, as well as an MTNA Nationals 1st place winner. The studio cultivates a warm family atmosphere among high achieving students who encourage and support each other."

"I am adept at many teaching methods as well as using the Suzuki Method for very young children. I teach children ages 3-18. I do not travel to student homes. When students express an interest, we also learn jazz improvisation, hymns, basic organ technique or basic conducting. Most of my High School students maintain their own small teaching studios which I mentor and support."
